- Mohamed osama abdelghany

Introduction:

Airline Reservation

Description of the project:

Airline reservation system (ARS) are system that allow an airline to sell its inventory (seats).

It contains information on schedules and prices and contains a database of reservations (or passenger name records) and tickets issued.

The main drive behind establishing our project was our wish to develop the concept of traveling easily, comfortably and elegantly. This is why we have always strived to provide innovative online traveling solutions to travelers around Egypt and travelers from all over the world, middle eastern especially. We proud for provides comprehensive and high-quality services in the travel and tourism sector.

6th Customer service profiles:

1-

The screenshot shows a web browser window with a single tab titled "mo page". The address bar displays the file path "C:/Users/L3THAL%20DEX/Desktop/multimedia/mo.html". The webpage content is overlaid on a background image of an airplane wing flying over a city at sunset. In the top left corner of the webpage, there is a logo consisting of a blue circle with a white swoosh and a small airplane icon. The profile information is centered on the page:

Mohamed Osama Abdelghany Abdallah

Personal Information

Name: Mohamed Osama
Age: 22
Address: 3/abdelghany abdallah - haram/Giza
Phone: 0120042713
Email: info@mti.edu.eg
Specialization: CS
University: Medinet Nasr University for Technology and Information-MTI

The Windows taskbar at the bottom shows the search bar with the text "Type here to search", several application icons, and the system tray displaying "19°C", "ENG", and the date/time "11:13 AM 12/14/2022".

```
